◆ MANDATE ◆

The Indian Agricultural Universities Association is a Registered Society under Registration no. 3498 of 10 November, 67. It was established in November 1967 with nine agricultural universities as its founder members.

At present there are 43 agricultural universities in the country, i.e. 37 state agricultural universities, 5 deemed-to-be universities (AAI, IARI, CIFE, IVRI and NDRI) and 1 central agricultural university. All these are regular members of the Association.

The main objective of the Association is to promote agricultural research, education and extension in the universities and states, and thereby rural development in the country. It also acts as a bureau of information to facilitate communication, co-ordination and mutual consultation among agricultural universities. The Association also acts as a liaison between member universities and government departments to facilitate communication and expedite the needed action in matters of importance.

All the universities and institutions (deemed-to-be universities)-which provide an integrated programme of teaching, research and extension education in agricultural sciences, are qualified to become regular members of the Association.

Vice-Chancellors of member universities or institutions constitute the Association's General Body. The General Body meets once a year to decide the agenda for the next convention as also for approval of its audited accounts and budget estimates for the next financial year, as well as the election of the office bearers for the following calendar year. The Executive Committee of the association consists of President, Vice-President, Secretary-Treasurer and three members. The Executive committee meets quarterly.

The office of the Association is manned by the Executive Secretary, who implements the decisions of the General Body and the Executive Committee on behalf of the Association. The Association has been bringing out a journal of the IAUA annually since 1987, to exchange and promote ideas to help improve the norms and standards in agricultural education, research and extension in the member universities. A quarterly newsletter is also being published by the Association since 2000, giving important news, events and actions by member universities for the information of all the members.

The main source of revenue of the Association is the annual subscription from member universities. The **ICAR** also gives a grant annually.

◆ MANAGEMENT ◆

◆ EVENTS ◆

❖ 28th Annual Convention

The 28th Annual Convention was held on 28-29 June 2004 at SKUAST (K), Srinagar on the theme 'Orient. agricultural education towards future needs and opportunities'. The main recommendations are given below:

On Dias – Left to Right

Dr. H.U. Khan, VC, SKUA&T (J); Dr. S.S. Bhagel, VC, CAU, Imphal and President IAUA; Jenab Abdul Aziz Zargar, Hon'ble Minister of Agriculture and Co-operation (J & K); The Chief guest Lt. Gen. (Retd.) S.K. Sinha, PVSM, the Governor (J & K); Dr. Mangala Rai, Secretary DARE (Govt. of India) and DG, ICAR; Dr. A. Alam, VC, SKUA&T (K)

Dr. S.S. Bhagel, Vice-Chancellor, CAU Imphal and President IAUA addressing the delegates

Dr. Mangala Rai, Director General ICAR and Secretary DARE addressing the delegates at the convention

- Agricultural education should orient the mind-set of the student and develop in them skills to turn rural-based strategic opportunities into self-employment.
- Restructure agricultural education to meet the demand-driven manpower requirement of private-sector enterprises.
- Graduates of Agriculture and allied fields should also be groomed also as service providers and authorized suppliers of agricultural inputs.
- The establishment of private agricultural institutions should be subject to approval of ICAR and the Accreditation Board.
- Distance education may be encouraged only in the areas not requiring practical training such as agri-business management, economics etc.
- Appointment of the Vice-Chancellor, members to statutory bodies like Board of Management and Executive Committee should rest with the Chancellor.
- Research and Extension Councils should include progressive farmers (Krishi Bhushan/ Krishi Pandit etc) and Academic Councils should include an academican from traditional university and agro-industry based SAU graduates as members.
- As each agro-ecological situation is suited for a few crops and commodities, the SAUs with the assistance of ICAR and IAUA should identify such niche crops and commodities and focus these in their academic programmes, besides issues of food and feed security.
- Approach to niche agriculture should be made in holistic manner to cover the entire gamut of activities including production, processing, marketing and export to create Centres of Excellence at each SAU.
- Sufficient budgetary support is imperative for agricultural education and research in SAUs, both by the Central and State-funding agencies. Allocation should reflect at least 2% of GDP in agriculture.
- The ICAR assistance to SAUs should be increased to a minimum of one-third of the total annual budget. Liberal financial support by the ICAR for networking of institutions and maintenance of IT infrastructure under Development Grant was emphasized.

❖ 29th Annual Convention

The 29th Annual Convention was held on 12–13 January 2005 at CCS HAU, Hisar on the theme 'Quality of agricultural education in the context of national priorities and international commitment'. The main recommendations are given below: -

Dr. Mangala Rai, Director General ICAR and Secretary DARE addressing the delegates at the 29th convention

Vice-Chancellors' conference discussed new priorities in Agricultural Education. Sitting on the dais (left to right) are :

Dr. R.K. Malik, Director of Extension Education, CCSHAU; Dr. S.N. Puri, President, IAUA; Mr. M.K. Miglani, Vice Chancellor, CCSHAU; Dr. Mangala Rai, Director General ICAR & Secretary, DARE; Dr. J.C. Katyal, Deputy Director General (Education), ICAR and Dr. R.P. Singh, Executive Secretary, IAUA

Audience at the inaugural function of the convention

Based on his reputation as a leader in agricultural science and significant contributions in agricultural research, Dr. Mangala Rai, Director General, ICAR & Secretary, DARE was presented the scroll of honour by CCS Haryana Agricultural University, Hisar. Mr M.K. Miglani, IAS, Vice-Chancelloris presenting the scroll.

Dr. Mangala Rai, Director General,
ICAR Chairing Technical Session-I

Meeting of the G.B. of IAUA in progress. The IAUA is committed in improving the quality of agricultural education through partnership between different SAUs and the ICAR

1. The ICAR should have a major role as the regulatory authority in planning, formulation of norms, accreditation and integrated development of agricultural education to avoid proliferation of the institutes. The ICAR should have statutory powers.
2. Specific commitments covering education in GATS should be made in consultation with stakeholders before making commitments on commercialization of education and training, which may pose risk to public sector education.
3. In the light of provisions included in GATS:
 - (i) Affirm Public Sector Agricultural Education as a social good, since it influences the lives of millions of small and marginal farmers.
 - (ii) Closely monitor the futuristic discussions/negotiations to safeguard Indian interest.
 - (iii) Create a discussion forum to play a pro-active role to impress upon the importance of PSAE.
 - (iv) The IAUA and ICAR should co-ordinate the work.
4. Education for entrepreneurship should be promoted. It should include changes in market place through change in education system.
5. The SAUs should sign exchange agreements with international and national institutions with cosmopolitan outlook.

6. Our education system should have paradigm shift, based on faculty-student model, ICT application in agricultural education for professional farmers, education for competitiveness, education for executives, education for serving the poor, education for voluntary sector, education for human values and ethical conduct and education for educators.
7. Outsourcing of faculty and networking among SAUs and national institute should be encouraged to prepare the students for MNCs.
8. The SAUs should have Think Tank, Task Force and WTO cell or agribusiness Centre.
9. We should have task force at national level to prepare ourselves for international negotiation and to modernize and reorient mindset for capital investment.
10. Mobility within and between NARs/SAUs/DUs networking and the ICAR/SAUs participation of Ph.D. students in academic activities should be encouraged.
11. India can be a service provider in developing countries to help HRD in Africa, Middle East etc. In this context India should set up a consortium for logistic support. Exchange of students and faculty with foreign institutes should be institutionalized.
12. International research should be more strategic in its application, and we should move from commodity approach to system approach, disciplinary to inter-disciplinary research, combine traditional knowledge with modern science, and bring in a right balance between the national and international agenda.
13. We should adopt quality improvement as a comprehensive international goal, develop appropriate learning environment, establish educational technology as well as quality circles for total quality management. Improvement in quality should be viewed in the context of measurable parameters like accountability, creativity, leadership, appreciation and team work.
14. A uniform work load system for teachers/scientists/extension workers should be followed in all the SAUs.
15. Changing technologies and globalization requires holistic approach to cater to quality in agricultural education vis-à-vis international commitments, food security and frontier sciences, i.e. biotechnology, remote sensing, I.T. connectivity etc., to ultimately benefit our rural people.
16. A draft proposal on accountability in the SAUs should be prepared by the ICAR as a uniform measure of accountability, which may be debated by the SAUs for consensus.
