## MANDATE

The Indian Agricultural Universities Association is a Registered Society under Registration no. 3498 of 10 November, 1967. It was established in November 1967 with nine agricultural universities as its founder members, viz. PAU, Chandigarh (now Ludhiana); APAU (now ANGRAU), Hyderabad; JNKVV, Jabalpur; UPAU (now GBPUAT) Pantnagar; UAS, Bangalore; KU, Kalyani (now BCKV, Mohanpur); OAUT Bhubaneshwar; UU (now MPUAT, Udaipur) and IARI, New Delhi.

During this long span there has been phenomenal increase in the number of member universities, especially during the late 90s and onwards. At present the strength of association membership is 46 agricultural universities, i.e. 39 state agricultural universities, 5 deemed-to-be universities (AAI, IARI, CIFE, IVRI and NDRI) and 2 central agricultural universities. All these are regular members of the Association.

The main objective of the Association is to promote agricultural research, education and extension in the universities and states, and thereby rural development in the country. It also acts as a bureau of information to facilitate communication, co-ordination and mutual consultation among agricultural universities. The Association also acts as a liaison between member universities and government departments to facilitate communication and expedite the needed action in matters of importance.

All the universities and institutions (deemed-to-be universities) in India, which provide an integrated programme of teaching, research and extension education in agricultural sciences, are qualified to become regular members of the Association.

Vice-Chancellors of member universities or institutions constitute the Association's General Body. The General Body meets once a year to decide the agenda for the next convention and also for adoption of its audited accounts of the year and approval of budget estimates for the next financial year, besides the election of the office-bearers for the following calendar year. The Executive Committee of the Association consists of President, Vice-President, Secretary-Treasurer and three members. The Executive Committee meets quarterly.

The office of the Association is manned by Executive Secretary, who implements the decisions of General Body and Executive Committee on behalf of the Association. A quarterly newsletter is also being published by the Association since 2000, giving important news, events and achievements by member universities for the information of all the members.

The main source of revenue of the Association is the annual subscription from member universities. The ICAR also provides a nominal grant annually.

## MANAGEMENT

## **EVENTS**

### **2nd Regional Meeting**

**The 2nd Regional Meeting was held at Central Agricultural University, Imphal on 5-6 October 2006 on 'Agriculture and Livestock in Integrated Farming System'.**

**The major recommendations are as under: -**

1. A Regional Consultative Group needs to be established under the Chairmanship of the most senior VC in the region to frame education and

H.E. Governor of Manipur Shri S.S. Sindhu inaugurating the meeting

development agenda in a partnership mode, to facilitate addressing of farmers' issues and propagation of intensive integrated farming-system models developed for the region by ICAR Research Complex.

2. A Regional Referral Laboratory needs to be established in NEH Region of ICAR to promote organic agriculture and animal husbandry.
3. Cultivation of maize and soybean, the two important components of animal feed, along with rice bean, and other forage and feed crops should be popularized in a mission mode with forward and backward linkages.
4. Rain-water conservation for its better utilization in non-rainy or drought period will help in increasing the cropping sequence and insensitive cropping during winter (*rabi*) season. Shallow tube-wells will prove highly beneficial in valley areas.
5. The scientists of KVKs should be given the required training to create awareness and development of technical skills in various aspects of production and components of farming systems. Women should also be a focus for training in livestock and fish farming.
6. To improve the productivity and profitability of various components of farming systems like crop, animal, fishery etc., the availability of quality seed, planting material, fish seeds, chicks etc. should be ensured and necessary infrastructure should be created.
7. For improving the livelihood of the farmers and farm income on year-round basis, crop diversification and integration of crops with livestock and fishery as complementary activities is the most sustainable practice.
8. There is great scope to diversify the area for medicinal plants, vegetables, pulses (lentil), groundnut, soybean etc. Seeding in the standing crops of paddy with field pea, berseem etc. may be attempted. Niger is another low water-input-requiring crop, which may be tried in the area for honeybee enterprise. The under-crops of turmeric and ginger with main fruit crops may be tested in this region.
9. There is a need for formation of SHGs/farmers' clubs with women empowerment along with training for post-harvest processing, value addition and marketing.
10. Extensive work is needed on collection, evaluation and conservation of various crops of NE region. Wild species of paddy, vegetables, fruits, horticultural crops, under-utilized fruits, spices, ornamentals and the medicinal and aromatic plants need more emphasis.
11. Indigenous livestock of NEH Region including Manipuri pony, Banpala sheep, Dam and Mali pig and wild Asiatic buffalo needs to be surveyed and characterized, both at phenotypic and molecular levels and conserved. Non-descript cows should be upgraded through crossing with Sahiwal or Gir. Backyard poultry should be encouraged and model backyard poultry farms should be established by KVKs in their areas of jurisdiction. States should develop regional livestock databank so that species-wise breeding policy can be framed with the help of NBAGR.
12. Facility of credit availability at low interest rate should be provided for land development, establishing regulated markets and processing facilities.
13. Role of women needs to be promoted further, especially for skill-based cottage industries and home stead farming components.
14. To improve the efficiency and rate of tea-leave plucking, there is need to propagate light-weight cloth-bags for collecting the leaves and use of finger-blades for cutting the leaves instead of hand plucking.
15. Value addition of fruits, vegetables, bamboo shoots, fish and bio-fuel by planting *Jatropha* can be taken up. Use of waterlogged areas of Assam and Tripura for cultivation, production and processing of lotus stem, makhana and singhara needs attention.
16. Women should be organized at village, block and district levels. Funds by line departments

like Tribal Welfare Department, Rural Development Department etc. should be released directly to women organizations. Women's grants can be issued through Micro-credit plan of village and implemented with or without bank-credit support.

17. General Recommendations covering SAUs, DUs and CAUs:

- (i) Adoption of Model Act.
- (ii) Enhancement of RAWE and Internship for agricultural and veterinary graduates under consideration by the ICAR should be pursued for early orders.
- (iii) Resource crunch in SAUs, ICAR and IAUA should be taken up with Planning Commission for adequate flow of funds.
- (iv) Conditional advertisement of NET for recruitment for SAUs may be given.
- (v) To make KVKs as the knowledge centre, only State Government or Line Department should take up extensive activities.

### 31st Convention

**IAUA 31st Convention was held at CSAUA&T, Kanpur on 9-10 December 2006 on 'Role of SAUs in Ushering Second Green Revolution'.**

**The recommendations of the convention are as under: -**

1. The Goal of SAUs and other agricultural educational institutions should be "every scholar an entrepreneur" integrating business management principles with major applied courses.
2. The Home science colleges may be restructured as College of Human Sciences with both male and female scholars mastering disciplines like nutrition and post-harvest technology.
3. Agriculture should be introduced at school level.
4. A system for according recognition to farm graduates to provide extension and other services by recognizing them as Registered Farm Practitioners should be developed.
5. Self Help Groups and Producer Companies of Farm graduates could be formed to avail of the new credit facilities for undertaking production of several, high quality hybrid seeds, bio-fertilizers, etc.
6. SAUs and ICAR institutes should upscale their research activities in export oriented agricultural and horticultural commodities.
7. Grower's association should be formed and involved in production, post-harvest management and export decisions to ensure sustainability.
8. Land reforms in various states including consolidation, ceiling limits and lease markets should be accomplished on priority basis.
9. To create awareness among the farmers about new technology, more stress should be given on participatory approach.
10. Technology generation, technology transfer and commercialization of technologies with the participation of all the stakeholders should be strongly promoted.
11. The technology transfer system must concentrate more on cost effective technologies for maximizing net returns of farmers.
12. There is an urgent need to have more information flow and knowledge regarding Right to Information Act.
13. The IAUA may be kept informed by the universities about various issues arising out of the

Lightening of lamp by Padma Shri Dr. R.B. Singh

requests received under RTI Act, and the relevant/useful information should be published in the IAUA Newsletter.

14. Strong linkages should be established between farmers and scientists.
15. Social engineering should be geared up in order to improve economic status of the farmers by adopting a new technology.
16. Krishi Mahotsav which was adopted by the Gujrat, the other states should also be implemented in order to educate farmers.

### 3rd Regional Meeting

**The 3rd Regional Meeting was held at TNAU, Coimbatore on 13-14 February 2007 on 'Value addition in Agricultural Products'.**

**The major recommendations are as under: -**

Dignitaries standing for National Anthem

- A delegation of IAUA comprising Vice-Chancellors to meet the Prime Minister and other members of planning commission and apprise the achievements in the field of agriculture including animal husbandry and fisheries and also the future expectations during the XI plan period.
- A book on the successful technologies evolved and success stories of extension to be compiled, published and circulated by IAUA.
- Most of the SAUs are functioning in old dilapidated buildings and the basic infrastructure housing the laboratories are outdated. Special financial allotment under non-recurring grant has to be sought from Central and State Government's to modernize the basic amenities.
- The Vice-Chancellors of Agriculture Universities to be involved in the planning process of state financial allocations as agriculture forms the major activity of our country.
- Financial allocation for agricultural research and education to be made under separate budget in the states as well as at the centre.
- Certain percentage of teaching/research personnel in all Agriculture Universities may be recruited from other states in order to develop healthy competition and avoid inbreeding.
- Tailoring the research and development programmes in order to cater to the standards of domestic and export markets.
- Sensitizing the policy makers on creation of community level infrastructure for grading, packing and packaging, and storage and promoting grower's association to empower them to negotiate on price.
- Efforts to be taken to encourage co-operative/contract farming with buy-back arrangements to initiate market-led production.
- Maintaining cool chain for the post-harvest handling of cut flowers around 5° C with appropriate packaging to get better prices in the international markets.
- The investment in agricultural research has to be enhanced to increase Total Factor Productivity to achieve 4% growth of the sector per se.
- For exploitation of the agro-ecological diversity of the country, programmes should be evolved for production/export of agricultural produce from different regions during the off-seasons in importing countries.
- Adoption of suitable national strategies on augmenting animal productivity, production, consumption and marketing of animal products. Creation of realistic database on meat, milk and egg production, handling transportation, pre and post harvest loss, marketing etc.

- Cutting edge technologies on processing, preservation and value addition on animal products by integrating Fewer biotechnological tools with the ITK may be developed.
- Development of HACCP, GMP protocols and quality standards for animal products viz., milk, meat, poultry, fish etc. with establishment of reference and testing laboratories.
- Food safety and quality should be dealt while considering the use of GM foods. There should be regulatory system established to oversee the biosafety of GM foods.

1. To hold 2nd joint meeting with AIU, New Delhi of Agricultural and Technical universities.
2. To hold 4th National Symposium at MPKV, Rahuri on 'Recent Trends on organic farming'.
3. To hold IAUA 32nd Annual Convention at BAU, Ranchi on 'Diversification in Indian Agriculture'.
4. Meeting with Planning Commission for financial support to SAUs

## **FINANCE, BUDGET AND AUDIT**

The main source of revenue of the Association is the subscription from member universities. In addition, the ICAR also provides a nominal assistance of Rs 3 lakhs annually for organizing national-level events like Annual conventions, National symposiums and Brainstorming sessions etc. Effort are being made to convince ICAR to raise the annual assistance from the present Rs 3 lakhs to Rs 10 lakhs, to enable the Association to expand and organize its activities in a proper manner.

The audited statement of account for the year 2006-07 is given in Annexure 1. It shows that total income of the association from annual membership subscription is Rs 13,50,000 (Thirteen lakhs fifty thousand) and total expenditure Rs 14,88,954 (Rs Fourteen lakhs eighty three thousand nine hundred and fifty four). The association also has fixed deposits of Rs 63,90,476/- (Sixty three lakhs ninety thousand four hundred and seventy six) at the close of the financial year 2006-07.

## **ACKNOWLEDGEMENT**

Association thanks ICAR especially the DDG (Edn) for providing all kind of support and guidance. Association also sincerely thank Dr. S. N. Puri, VC, CAU, Imphal; Dr. V. K. Suri, VC, CSAUA&T, Kanpur and Dr. C. Ramaswamy for hosting and organizing 2nd IAUA Regional meeting, 31st VCs IAUA Annual Convention and 3rd IAUA Regional meeting, respectively.
